

DALIAN MESCO STEEL CO., LTD.

MESCO STEEL was founded in the year of 2007, located in Dalian City, Liaoning Province. It is the Largest private coating steel supplier in northeast China. Wind Vane company of price in mainstream media. Council member enterprise of Chinese Steel Export Union. Council member enterprise of Chinese Northeast Steel Structure Union. The spokesperson of Chinese mid-to-high level steel products.

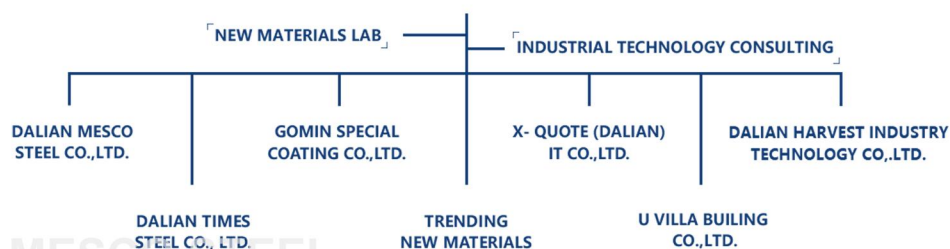

18 years

90 countries

600+ clients

MESCO GROUP

Enterprise includes four parts which are Steel Product, Integrated Housing, Machinery and Equipment, UV-curing coating. Among them, main steel products include: cold rolled steel, galvanized steel, galvalume steel, pre-painted steel, ZAM steel, aluminized steel, PVC laminated steel, new products are: powder spray painted steel, Enamelled Pressed Steel, etc.

Aluminized (Aluminum Coated) Steel Coil/Sheet (AS)

Top 3 AS steel manufacturer in China. First supplier that manufactures aluminized steel with 240g/m² coating, and first one produces 400g/m² as well. Now MESCO is the exclusive company can supply AS steel with aluminum coating over 240g/m². Salt Spray Test result over 4000 hours. First company produced aluminized steel pipe. Overall AS steel daily stock 5000 tons, Standard specifications, delivered within 3 days.

■ Aluminized (Aluminum Coated) Steel Coil/Sheet (AS)

● Aluminized Steel Description

Thickness: 0.16-3.0mm

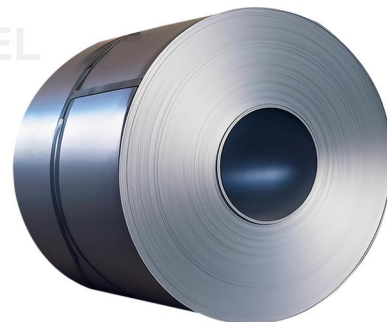

Width: 900-1600mm

Coil ID: 508/610mm

Coil Weight: 4-12mt

AS Coating: 80-400g/m²

Grades: DX51D - DX57D; S220GD - S550GD

● Application scenarios

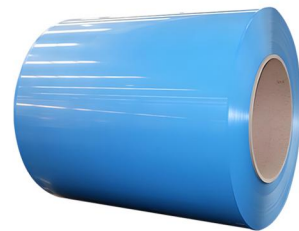

1. **Automotive industry:** automotive insulation panels, engine components, chassis components, etc.
2. **Home appliance industry:** oven and stove shells, toasters, barbecue grills, internal heating components of microwave ovens, etc.
3. **Construction industry:** roofs, firewall panels, insulation panels, etc. used in high-temperature environments.
4. **Industrial equipment:** drying equipment, industrial equipment used in high-temperature environments.

■ Aluminum silicon color coating

• Category Brand

Paint Types: PE, SMP, DP, PVDF

Paint Brands: Akzo, Nippon, Becker, PPG, KCC, Valspar

• Application scenarios

1. **Home appliance industry:** ovens, microwave ovens, barbecue grills; Water heater and heater casing; Air conditioning outdoor unit, refrigerator back panel.
2. **Automotive manufacturing:** exhaust pipes, mufflers; Engine heat shield, chassis guard.
3. **Architectural decoration:** roofs/walls of industrial plants and warehouses; Chimney and boiler room enclosure; Indoor decorative panels.
4. **Industrial equipment:** drying equipment, industrial furnaces; Chemical pipelines and storage tanks.

■ Aluminum silicon steel pipe

Item	Aluminum Coated Steel Pipe
Thickness	0.8-3.0MM
Shape	Round/Square/Rectangular
OD/Side Length	20-200MM
Length	Within 12000mm, as clients' requests
Raw Material Grade	DX51D/S220GD-S550GD
Zinc Coating	AS80-AS300g/m ²

• Application scenarios

Automobile exhaust system: muffler, exhaust pipe, chimney pipe, heat exchanger
